Introduction (Marco Knafitz).....	p.	11
-----------------------------------	----	----

Section 1: Neuromechanical analysis of locomotion in sports

Introduction (<i>Ezio Preatoni, Valentina Camomilla</i>)	»	15
1. Measurement and extraction of motion-related quantities in sport (<i>Elena Bergamini, Valentina Camomilla, Marco Caruso, Andrea Cereatti, Silvia Fantozzi, Giuseppe Vannozzi</i>).....	»	19
2. Measurement and estimation of dynamic quantities (<i>Claudia Giacomozzi, Daniele Bibbo</i>)	»	63
3. Surface EMG in sport: methods, applications, and challenges (<i>Valentina Agostini, Giacinto Luigi Cerone, Marco Gazzoni, Marco Ghislieri, Marco Knafitz</i>).....	»	85
4. Unconventional electrodes for unobtrusive biopotential monitoring: from wearable to more-than-wearable (<i>Andrea Spanu, Danilo Pani, Annalisa Bonfiglio</i>).....	»	103
5. Biomechanics and bioenergetics in sport (<i>Gaspare Pavei</i>).....	»	115
6. Musculoskeletal models (<i>Zimi Sawacha</i>).....	»	125
7. Human neuroscience in elite sport (<i>Silvia Comani, Antonio De Fano, Gabriella Tamburro</i>)	»	139
8. Gaze orientation and stabilization in sport (<i>Stefano Ramat, Silvia Colnaghi</i>).....	»	151

Section 2: Cardiovascular safety in sports

Introduction (<i>Marco Pozzi, Laura Burattini</i>)	»	167
1. Cardiac and vascular modelling in sports (<i>Gianluca Zitti, Seyyed Mahmoud Mousavi, Maurizio Brocchini, Gianni Pedrizzetti</i>).....	»	171
2. Cardiovascular devices (<i>Borja González Muñoz, Daniel Llorca Juan</i>)	»	189
3. Cardiovascular signal Processing (<i>Raquel Bailón, Riccardo Barbieri, Laura Burattini, David Hernando, Maximiliano Mollura, Sofia Romagnoli, Agnese Sbrollini</i>).....	»	193

Section 3: Respiration in sports

Introduction (<i>Andrea Nicolò, Laura Burattini</i>).....	»	219
1. Devices and methods for measuring respiratory parameters during exercise (<i>Andrea Aliverti</i>).....	»	223
2. Signal processing in respiration (<i>Carlo Massaroni</i>)	»	241
3. Respiration in extreme environments (<i>Danilo Bondi, Vittore Verratti</i>).....	»	255

Section 4: Exercise and metabolism

Introduction (<i>Massimo Sacchetti, Micaela Morettini</i>).....	»	271
1. From metabolism to immunometabolism in exercise: evolution of in-silico models. (<i>Micaela Morettini, Filippo Castiglione, Andrea Tura, Maria Concetta Palumbo</i>).....	»	277
2. Continuous glucose monitoring: past, present and future challenges (<i>Giacomo Cappon, Martina Vettoretti, Simone Del Favero, Giovanni Sparacino, Andrea Facchinetti</i>).....	»	293
3. Analysis of glycemic variability during sport (<i>Felipe Mattioni Maturana</i>).	»	307

Section 5: Parasports, sports inclusion and ethics

Introduction (<i>Pasquale Bellotti, Marco Knafitz</i>).....	»	319
1. The support of bioengineering to paralympic sport: a collection of applications from the Olympia project (<i>Andrea Giovanni Cutti, Gian Luca Migliore, Fabrizio Giacchi, Gregorio Teti, Francesca Gariboldi, Mattia Scapinello, Samira Breban, Giacomo Fabris, Sara Barbacane, Roberto Di Marco, Giuseppe Marcolin, Nicola Petrone</i>)	»	323
2. Para-sport: the Cybathlon experience (<i>Emilia Ambrosini, Nicole Sanna, Federica Ferrari, Alessandra Pedrocchi</i>).....	»	337
3. Ethics in sports - Doping and technological doping (<i>Vera Tripodi</i>).....	»	351
